Dedication SFGH Medical Center (Cont)

outpatient facility at 22nd St. and Potrero Ave. has been designed and equipped to provide an attractive, efficient, contemporary environment for high quality patient care and health sciences teaching. Cheerful two-bed rooms have replaced the traditional open wards of the old County hospital; new landscaping and a large collection of fine arts and sculpture by leading Bay Area artists will beautify the buildings and grounds. The alliance between UCSF and SFGH dates to 1873, when Toland Medical College, which adjoined the original County hospital on Francisco Street, became an affiliate of the University of California. Completion of the new SFGH Medical Center culminates a construction project authorized by a municipal Bond Issue approved by 77% of the vote in November 1965.
